TO BUILDERS, MASONS, CONTRACTORS, AND OTHERS.

EDWIN GATES having engaged the RAG STONE QUARRY, on the Preston Hall Estate, in the parish of Aylesford, the property of E. L. Betts, Esq., and lately in the working of that gentleman for the erection of his mansion in Kent, begs to offer the above named stone, which is of a superior quality, at exceedingly low prices, either worked or in its rough state; also squared Bremock for inside lining, and rag stone lime. The above can be supplied to any quantity by application to EDWIN GATES, Aylesford.

TO ENGINEERS, SURVEYORS, STREET AND ROAD CONTRACTORS, PAVIORS, AND BUILDERS.

THE GRAIGLWYD QUARRY COMPANY are now prepared to supply any quantity of square setts of various sizes, smooth faced Channel Stones, Kerbs and Building Stones from the Quarries, Penmaenmawr near Conway, into Trucks at their siding on the Chester and Holyhead Railway, free on board vessels at the shipping pier, or delivered at any safe port by the Company's vessels, at most reasonable prices. This material has been used for many years in Liverpool, Manchester, Chester, Birkenhead, and other large Towns, in Paving the Streets with Setts, and the rough Stones when broken, in macadamising. It has been tested in all situations, and found superior to Granite, from its much greater durability, the Setts having been laid down in streets of great traffic upwards of 13 years, with scarcely any perceptible wear. It has been extensively used in Walling and Arching Tunnels &c. on the Holyhead Line, and much approved by the Engineers.—For prices and further particulars, apply to RAYNES, LUPTON, & CO., Liverpool.

Specimens of the above Stone will be at the Great Exhibition.

STIRLING'S BELVEDERE SLATE WORKS, Belvedere-road, Lambeth.—A reduced list of prices of the best WELCH SLATE SLABS, planed both faces, will be sent on application; post paid being made, and inclosing a penny stamp. The prices are under those advertised for inferior slates.

THE PIMLICO SLATE WORKS.—Patronized by Royalty, the Heads of the Nobility, the Clergy, Architects of Eminence, Builders, Railway Contractors, and the Public generally.—MAGNUS'S ENAMELLED SLATE notwithstanding the vile imitations and infringements of his patent that are attempted continues to grow in favour with the public, being handsomer, more durable, and very much cheaper than marble.—Price lists sent to any part of the kingdom gratis, and a book of drawings sent postage free on receipt of 1s. in postage stamps. Chimney Pieces, Dairy and Larder Shelves, Wine Cellar Partitions, Slabs, and every variety of plain Slate Work, at prices that defy competition.—48 and 50, Upper Belgrave-place.

SLATE.—E. THOMAS, Menai Slate Works, Menai Bridge. Depôt for slate chimney-pieces, tombs, cisterns, urns, troughs, basins, and numerous other articles manufactured in slate. Delivered at the Bangor Station, or on board in the Menai straits. For prices and particulars apply as above.

N.B. Red Pit Sand, of approved quality, constantly on sale, upon reasonable terms. In the erection of walls, where it is desirable that the work should be kept as free from damp as possible, this sand, from its not containing any saline matter, is acknowledged to be preferable to river sand.

TO ARCHITECTS, BUILDERS, &c.

ALL descriptions of TERRA COTTA, CEMENT, and PLASTER CASTINGS, executed in a first-rate manner, on reasonable terms, by J. HEBBERT and SON, Modellers, &c., 42, Parker-street, Drury-lane. A splendid assortment of Corinthian, Ionic, and other Capitals; Centre Flowers, Balusters, Trusses, &c.; Elizabethan and other Chimney Shafts.

FRENCH PLASTER mixed with sand forms a hard stucco for internal walls, which dries rapidly, and may be used in all cases in place of lime and hair, at a trifling increase of cost. It is stronger for ganged work than English plaster, and is cheaper in its first cost.—Importers and Manufacturers, J. B. WHITE and SONS, Millbank-street, Westminster.

TO BUILDERS, CONTRACTORS, &c.

GREY STONE and CHALK LIME of unequalled quality may be had at MEDWAY WHARF, THAMES-BANK, PIMLICO, and WHITEHALL WHARF, CANNON-ROW, WESTMINSTER, at the following prices:—Grey Stone, 7s. 6d.; Chalk Lime, 6s.; and at HANOVER WHARF, 32, EDWARD-STREET, REGENT'S-PARK, Grey Stone, 7s.; Chalk Lime, 5s. 6d. BELL'S PATENT LIQUID CEMENT.—Ready for use, on the front of houses, only one-eighth the cost of oil paint: for beauty it is pre-eminent, giving the appearance of fine cut stone. In casks of 1, 2, and 3 cwt., at 8s., 16s., and 24s. each. Casks returnable.

PATENT MINERAL PAINT, invaluable for cheapness, beauty, and permanence. Ready for use. Will stand any climate, and well calculated for exportation.

NEW ELASTIC PAINT for DAMP WALLS; an effectual remedy, inside or out. Will dry in a few hours, and may be papered over at once, if desired.—G. BELL and Co., Steam Mills, 2, Wellington-street, Goswell-street.

ATKINSON'S CEMENT, made in London from Stockstone supplied from the Mulgrave estate, is well known for its setting properties and fine natural colour, which has distinguished it for many years as the best Cement for Casting and other ornamental purposes.—Manufacturers, J. B. WHITE and SONS, Millbank-street, Westminster.

KEENE'S and PARIAN CEMENTS, for internal stucco, are employed very advantageously in place of wood for skirtings, architraves, and panel mouldings, and for the floor flooring, instead of stone. The peculiar properties of PARIAN Cement allow of its being painted or papered upon within a few hours of its application, and thus render it an important substitute for common plastering in those cases where expedition and beauty of finish are essential.—J. B. WHITE and SONS, Millbank-street, Westminster, Patentees of KEENE'S Cement, Licensees of PARIAN Cement.

PORTLAND CEMENT, as manufactured by J. B. WHITE and SONS, possesses all the properties of the best Roman Cement, but has the advantage over that material of wholly resisting frost. When used as a stucco, it does not vegetate or turn green in damp situations, and requires no colouring. Employed as an hydraulic mortar for brick work, it carries four to five measures of sand to one of cement, and is proved by trial to become harder and stronger in these proportions than Roman Cement with but one measure of sand. This superior cementing power, combined with its eminently hydraulic properties, point it out as the truest material for building sea and embankment walls, the lining of reservoirs, cisterns, and baths, and for all those purposes where strength and a perfect resistence to water are required.

Manufactories—J. B. WHITE and SONS, Millbank-street, Westminster, and 36, Steel-street, Liverpool.

MARTIN'S PATENT FIRE-PROOF AND ORNAMENTAL CEMENT, APPLICABLE FOR ALL INTERNAL PURPOSES WHERE PLASTERING IS REQUIRED.

This invaluable Cement has now been, before the public so many years, and obtained so high a standing in the estimation of all who have used it, that it is unnecessary to comment on its merits. Messrs. STEVENS and SON, however, feel called upon to observe, that from the greater extent of surface which a given quantity of MARTIN'S will cover, as compared with other Cements for internal use, there will be found a gain of 16½ per cent. in materials, full 7 per cent. less in price, with an additional saving in labour of 10 per cent., by its allowing about forty minutes for working, being less than one-tenth of the time of other cements of a similar nature, to evidence work fit with greater facility, making together the enormous saving of full THIRTY-THREE PER CENT.; its advantages therefore cannot admit of doubt. Specimens, showing its beauty, hardness, and applicability to all plain and ornamental purposes, may be seen; and the Cement, in any quantity, obtained of Messrs. STEVENS and SON, at their Plaster and Cement Works, 186, Drury-lane, London—Manufactory, Derwent Mill, Derby.

N.B. This Cement will receive paint or paper in a few hours after the completion of the work by the plasterers.

JOHNS and CO.'S PATENT PERMANENT STUCCO WASH, WITHOUT SIZE OR OTHER CORRUPTIBLE INGREDIENT.

JOHNS and CO. having effected some important improvements in the manufacture of this very useful material, confidently offer it to the notice of the Trade and the Public generally, as possessing every advantage over the common Lime Wash or Water Colour for STUCCO or BRICK WORK. It is a Stone Colour, but may be tinted to any other.—DOES NOT WASH OFF.—Is perfectly dry in twenty-four hours, and, being a non-absorbent, is admirably adapted for Railway Stations, Union Workhouses, Barracks, Schools, Prisons, &c. One cwt. will cover 300 square yards. It will keep good for years, and MAY BE EXPORTED WITH PERFECT SAFETY.

JOHNS and CO.'S STUCCO CEMENT.—This cement, from the great reduction in price, and its suitableness for internal as well as external surfaces, places it above all other materials of its kind; it has no equal in qualities; may be painted or papered in a few days; never blisters, cracks, or vegetates; soon becomes as hard as stone; and may be cleaned with a brush and water.

The merits of the PAINT are well known for its applicability to stucco work of all kinds, and external work generally. Numerous testimonials, prospectuses, and every information may be obtained, on application to the Sole Agent, PHILIP HARE, at the Warehouse, 23, Steel-yard, Upper Thames-street. A liberal allowance to wholesale dealers.

PORTLAND CEMENT, sole MANUFACTURED by WILLIAM ASPDIN, of the Patentee, Messrs. ROBINS, ASPDIN, and Co. (see reference to No. 398, page 401; and also Nos. 384 and 385, pages 343 and 331, of "The Builder," for accounts of EXPERIMENTS on the strength of Portland Cements, whereby the great superiority of their Cement is manifest. This Cement has been proved for upwards of twenty years in the Thames Tunnel to resist the action of water: it is stronger in its cementitious qualities, harder, and more durable than any other description of Cement; it does not vegetate, crystallize, or turn green; nor is it affected by any atmospheric influence whatever the climate, resisting alike the action of frost and heat. It is manufactured to set from five to sixty minutes. For all purposes that Cement is required the Proprietors challenge competition.—Orders received by Messrs. ROBINS, ASPDIN, and Company, at their Manufactory, Northfleet, Kent, and their Wharf, Great Scotland-yard, Whitehall; also at their Depôt, 46, Hanover-street, Liverpool.

6, South Wharf, Paddington.

PORTLAND CEMENT.—FREEMAN and RICHARDSON have much pleasure in introducing to the trade the above superior CEMENT, being of uniform colour and quality in deliberation never before attained in Portland Cement. It possesses extraordinary cementitious qualities, resists the action of frost and heat, and is more durable than any other Cement; does not vegetate, turn green, or crack, even with which its eminent hydraulic properties stamp it almost the first Cement of the day for work where all the above qualities are required. It is manufactured on the only principle by which Cement can be had, and contrary to the statements put forth by those who have hitherto had the monopoly. Manufactured by GREAVES, Esq., at his Works, near the River Avon, and sent all parts of the kingdom per boat or rail, at a reduced price to the trade.

GREAVES'S PORTLAND, ROMAN, and LIAS CEMENTS.—The above possess every cementitious property, in an eminent degree, and are unequalled for all hydraulic purposes.

GREAVES'S GROUND BLUE LIAS LIME. FREEMAN and RICHARDSON, Agents. Offices, Warwick. 6, South wharf, Paddington.

PARKER'S CEMENT, TARRAS, CASTING CEMENT, MASTIC, and PLASTER OF PARIS, manufactured by J. M. BLASHFIELD, Mill-wall, Poplar, and sold at his wharves, Paddington Basin and Commercial-road, Lambeth.—Also CEMENT and TERRA COTTA CHIMNEY-POTS and SHAFTS, Balusters, Trusses, &c.; Glazed Stone and Red Ware Drain-pipes, and Closet-pans; Bricks, Lime, and Hair. Roofing and Paving Tiles, &c. &c.—Offices, No. 3, New London-street, Mark-lane, City.

THE PARIAN CEMENT, for INTERNAL STUCCO, which was supplied at Messrs. J. & R. MORLEY'S warehouses and dwelling in Wood-street, Grosham-street, in the City, has been used throughout the premises, in every story; absorbing about ten thousand yards superficial, chiefly upon recently built walls, and a small portion upon timber partitions, and that with the most perfect and satisfactory result. I feel it also necessary to observe, that the plasterers' work was almost invariably followed on the next day by the painters, thereby enabling me to have the buildings complete in the shortest possible time, both for business and for the occupation of the establishment. I am, therefore, of opinion, that the use of this new material is a most valuable feature in building operations, and fully justifies that which I was given to understand, viz., that it was an extraordinary material. I think it right to mention that I am at the present time having a great extent of similar work executed at another range of buildings, where time and the quality of the work are of the utmost importance.

(Signed) JNO. WALLEN, Architect, Lothbury.
